

How to register an account at BITE and claim your BITE token

BITE aims to provide a solution to existing problems of Bitcoin and Ethereum by construct a well-developed ecosystem of crypto token assets. BITE can be considered as an upgrated version of Bitcoin and Ethereum to address the inability of Bitcoin and Ethereum to fix issue of the low speed trafering and the network congestion of Bitcoin and instability of Ethereum. The goal of BITE is to build a light, fast and efficient blockchain payment network and an east-to-use asset issuance and reliable platform.

Important Notice

Deadline of claiming BITE: 2018/4/2/00:00

BITE claiming method: entering BITE official website bitethereum.io and find wallet download link. There is a tutorial under Windows system.

1. After download and install wallet, double click to open BiteEthereum

2. Enter account name and password

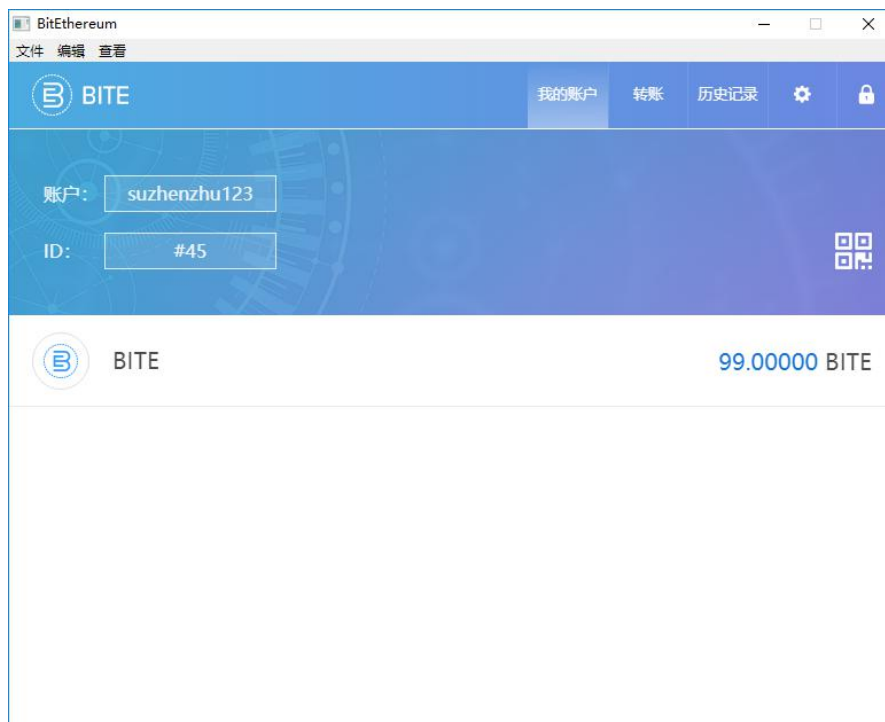

3. Click “创建账号(create an account)”

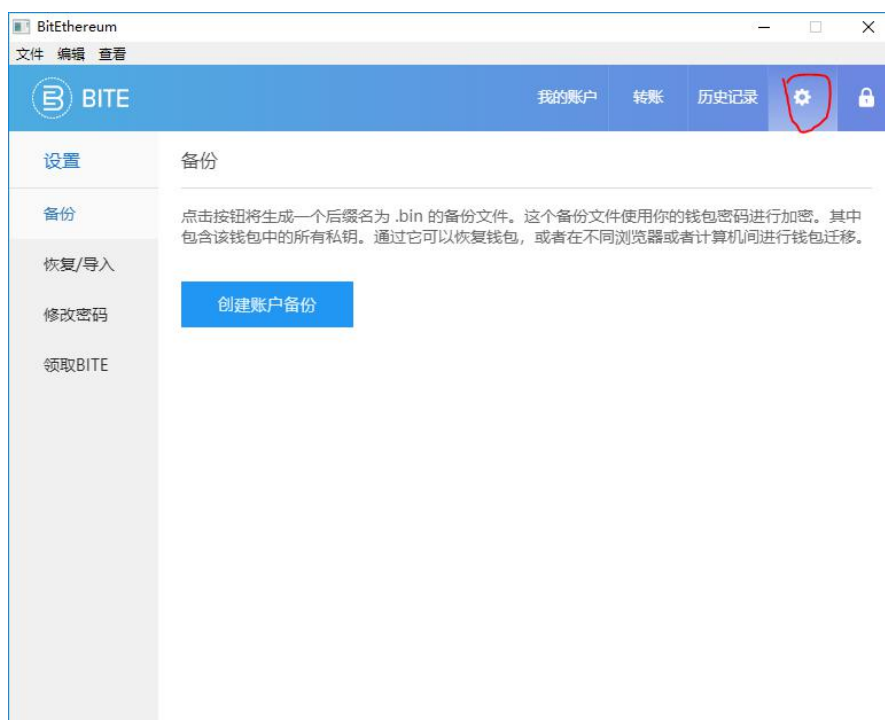

Keep back-ups of all addresses, password, private keys and back-up file and do not store these data in any internet-connected devices. You can store your back-ups in USB or print it or write it down.

4. Sign in

5. Click "set" at top right corner

6. Click "领取 BITE (claim your BITE)" at the left side

7. Enter signature address of Bitcoin/Ethereum

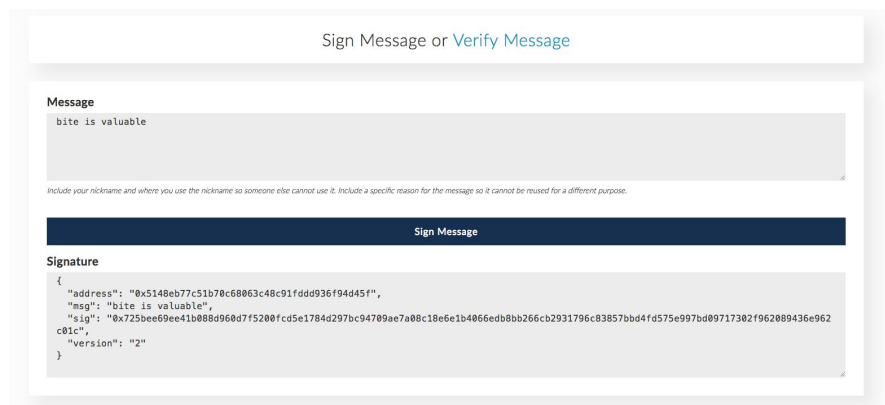

The way of acquire signature address
